Workshop: 90 min to half day

Today, turning the Great Resignation into the Great Retention is on everyone's mind. The global pandemic and other events have challenged employee resilience in every way possible. Now is the time to reignite that purpose and passion, engaging and retaining employees in your mission.

In this dynamic, highly-interactive workshop, Rena Whittaker will inspire the audience to cultivate self-compassion, connect to their WHY, and fuel creative problem-solving. Rena will reveal how simple one-degree shifts in communication and collaboration transform discouraged teams into empowered tribes.

BeingTRIBAL Principles:

- Trust = Build authentic, reciprocal relationships and team agreements.
- Respect = Shift communication that elevates mindsets and sets expectations.
- Investment: Empower the tribe's talents and gifts to ignite engagement.
- Belonging: Create a culture that sees, hears, and values our common ground.
- Accountability: Advancing a shared vision with your tribe drives success.
- Leadership: Holding space for individual hopes and dreams validates leaders.

There will be big AHA T.R.I.B.A.L. moments through laughter and celebration. Attendees will leave with easy one-degree shifts to transform their teams into purposeful tribes.

KEY TAKEAWAYS:

- Create authentic and meaningful conversations that build trust and respect, resulting in higher functioning and joyful employees.
